Dear Colleagues,

Subject: Call for proposals for EU and Japan projects and EU-JA joint projects for the use of the high performance computer resource JFRS-1 in Rokkasho

The Broader Approach (BA) activities between Europe and Japan entered the BA Phase II (from April 2020 to March 2025) building on the successful results of the BA Phase I (from June 2007 to March 2020). In the context of the BA Agreement, F4E and QST together with EUROfusion are seeking to continue to foster the scientific collaboration between the two parties. For this purpose, the high performance computer resource JFRS-1 in Rokkasho is provided by QST as a Japanese host contribution to BA Phase II. Therefore, this resource is available to implement EU and Japan projects and EU-JA joint projects from April 2024 to March 2025.

With the present letter, I invite you to submit proposals for the use of the high performance computer resource JFRS-1 in Rokkasho, provided by QST to be implemented from April 2024 to March 2025.

In Annex 1 to this letter you will find details on the scope of the intended EU, Japan and EU-JA joint JFRS-1 simulation projects. These include the specifications of the available computer systems, the eligibility criteria for proponents and participants in the projects, the deadline for the submission of proposals for EUROfusion contributors, and the contact points.

The deadline for the submission of project proposals is **Friday, 9th February 2024**. The preparation of project proposals should be done using the template provided in Annex 2 and the proposals should be sent to alloc-com@iferc.org. Questions related to the call for proposals should be sent to the specifically established joint allocation committee alloc-com@iferc.org.

Yours sincerely,

Ambrogio Fasoli
Programme Manager
