To: The Members of the General Assembly

Subject: Call for extra activities under the Work Package Preparation of ITER Operation (PrIO) on databases and Integrated Data Analysis and Validation in view of ITER application.

Dear Colleagues,

In the course of the elaboration of the annual 2024 Work-Programme within the Work Package WPPrIO, Preparation of ITER Operation, new or extended activities have been identified. The present call concerns activities covered within the Sub-Project-2 (SP-2) of WPPrIO, "Preparation of ITER first experimental campaigns" and addresses the following topics:

- (i) coordinator of a new multi-machine EUROfusion database on Infra-Red images (Topic 1),
- (ii) transport, pedestal and disruption data experts to support the extension of the existing (within WPPrIO) multi-machine EUROfusion databases (Topic 2),
- (iii) development of an integrated multi-diagnostics data analysis tool in view of ITER application (Topic 3).

The Annex to this letter provides further information on the call, objectives, resources and submissions proposals.

Response to the call:

The responses to the call shall be submitted through the EUROfusion Information Management System (IMS), <https://ims.euro-fusion.org/fp9/> no later than midnight of **16 February 2024**.
